I. About the London & Middlesex Local Immigration Partnership (LMLIP)

The London & Middlesex Local Immigration Partnership (LMLIP) is one of 34 Local Immigration Partnerships in Ontario, funded by Citizenship and Immigration Canada. The work of the Local Immigration Partnerships (LIPs) across Ontario is supported by the Ontario Ministry of Citizenship and Immigration as well as the Association of Municipalities in Ontario (AMO). In the past year, the model of the LIPs has been implemented in other provinces such as Alberta, Nova Scotia and Newfoundland and Labrador.

LMLIP continues to be guided by a Central Council and six issue specific Sub-councils and the support of the community. Our vision is a client centred approach that includes and works with immigrants to enhance their successful integration into Canadian society.

LMLIP continues its strategic plan to reach out to all sectors, consult with communities, organizations and ethnic associations to ensure that efforts are coordinated; and partnerships established to facilitate a comprehensive approach to the successful integration of the immigrants.

This report highlights the implementation of the first annual work plan to advance a number of strategies from the updated *LMLIP Strategic Plan 2013-2016*. Our work is sustained and supported through the work of more than 300 volunteers who are actively involved on the LMLIP Central Council, the six issue specific Sub-councils and the working groups. In the past year, close to five hundred hours (compared to close to 350 hours last year) were contributed by the groups. Individuals that participate in these various groups contribute approximately ten hours each per month.

We will continue to count on the support of community partners, ethnic associations, faith groups and interested citizens to develop capacity, establish partnerships and work strategically toward creating a more welcoming community.

III. In Progress

LMLIP Council endorsed the *LMLIP Strategic Plan 2013-2016* and submitted the Plan to Citizenship and Immigration Canada. Over 20 Work Groups will continue to engage the larger community and service providers in looking for innovative ways to engage, inform and integrate our immigrant communities. Through these Work Groups, parents, students and teachers engage in the process of maximizing resources and building on capacities to educate, learn from and interact with each other. Service Providers in the health sector will learn about the impact of using professional interpretation. The host community will further be engaged in the conversation through the exhibits and a TV Show. Immigrants will be informed and educated on civic engagement. Employers will enhance their opportunity to tap into some of the untapped skills of immigrants and provide the latter with meaningful volunteering opportunities. Partnerships and collaborations will be explored to maximize resources and to further enhance the environment of collaborative work in our community.

LMLIP Central Council and each of the six Sub-councils, namely: Education, Employment, Health and Wellbeing, Inclusion and Civic Engagement, Justice and Protection Services and Settlement will be working with the community to implement their first year action plan. Continued consultations with the community will further assist us in coordinating with services across sectors, to address gaps and create opportunities for responding to emerging needs.

IV. Conclusion

Our community is working differently and it is worth noting a few examples that reflect the cross-sector working together to enhance the immigrants' knowledge on resources. "Because of the cross-sector nature of the Sub-council workgroups, individuals learned more about services and programs of the other agencies, resulting in stronger sector connections and engagement. For example, through the connections of the LMLIP, a health agency was invited to be part of presentations to the clients of an employment organization; a health agency is engaged in supporting the planning of summer camps for kids and developing a new moms' group for a faith group. This is happening outside of the LMLIP but it is because of connections made through the workgroups".¹

"The LMLIP is the resource that spreads awareness among frontline professionals. Information spreads through members and taken across the sectors. When awareness is raised and information is shared, perspectives begin to change"².

In the past year, our webpage received 3,173 hits, compared to 707 last year. We are reaching out to stakeholders locally, nationally and internationally. We continue to pride ourselves in the commitment and the continued engagement of our community partners from across sectors

including the ethno-cultural associations and faith groups. We are very thankful to our new partner, Rogers TV who is providing us with the platform to educate and entertain the host and immigrant communities.
